B5 Gerhard Fast - Sara Goertzen	190
B6 Peter Fast - Agatha	191
B7 Agatha Fast - Jacob Eitzen	192

* * *

A Brief Historical Background of our Fast Family

For two reasons we will call this the "JOHANN FAST Family Book." First it starts with a Johann Fast and then there is a continuous line of Johanns for seven generations, from about 1763 to 1963, or about 200 years. Fast is an old Germanic Name, in old High-German it is Fasti, in Bairish Fastl, in Frisian Fastge (Fastke), in Flanders Veste and van der Veste or Verveste about 1500; other forms are Feste, Vast, Faast, Faust, and Fausten. In 1582 Arendt Feste lived at Wotslaff near Danzig. 1776 there were 33 Fast families in the Vistula and Nogat river valleys and the Big Delta, in Prussia. South and east of Danzig the name Fast appears in both the Flemish and Frisian Congregations. At present we do not have any definite record when our Fast family came to Prussia, but very likely about the middle of the 16th century. It was soon after 1500 that Charles the V. directed his forces very heavily against those that could not go along with the rituals and practices of the Roman Church, torturing, drowning, burning, killing and imprisoning thousands, because of their personal and practical faith in Christ, and baptizing only adults upon this confession, not taking oath, their non-resistant stand and a practical Christian life. The Roman Church, spiritually and morally, from the top on down, had fallen to such a degree, that they were using the lowest forms of torture to force individuals and groups of true believers to recant. The general name applied to these groups were rebaptizers or Anabaptists and included in these groups were the Menno-nites, Baptists, Waldensens, Albigenes, Petrobrusians, Catharians, Husites, Bogomils and others.

These conditions were the cause that many of our forefathers gave their lives and others to flee, leaving homes, property and farms. The general direction was from Flanders to Holland and North Germany, Friesland and Prussia. Due to these circumstances many Bibles, books, records, writings and letters were destroyed or lost. It was during this time that Menno Simons, a priest, realized his lost condition, accepted salvation by faith and joined one of the congregations of our forefathers, shepherded at the time by Dirk and Obbe Philips. Pressure was also increasing in Holland and Friesland causing more to move to Prussia. Records show that by 1526 there were Anabaptists at Marienburg and 1550 Elder Dirk Philips moved to Danzig, serving the Prussian Churches. Menno Simon served as Evangelist and organizer in Holland, North Germany and Prussia, these congregations were then called Mennists and later Mennonites. He also wrote many books, to guide and strengthen the churches.

The general movement of our people into Prussia was along the Vistula River in a south and easterly direction. Starting from Danzig (Gdansk) then south to Culm (Chelmno) and Graudenz (Grudziada) and then east and north to the Nogat River valley to Marienburg (Malbork) and Elbing (Elblag), and it was 28 miles south of ~~Malbork~~ Elbing, in Liebenbruch where our Johann Fast No. 2 was born about 1784, as recorded in the Markushof Church book.

The Markushof Church was about 7 miles south of Elbing. The marriage to Anna Ellertin, born in Lichtfelde June 5, 1785 and the births and names of the first four children were all recorded here, with Helena born Dec. 23, 1814. Then from our family records we know that Gerhard was born in 1818 and that they lived in the Stuhm lowlands, in the village of Rudnerweide or Tragheimerweide, Before they moved to South Russia in 1818 or 1819 with 150 Frisian families.

Here in Prussia the leaders of the Church in power, instigated trouble by false accusations to authorities, and in many instances it was just k jealousy. At times our people were to pay extra taxes to the Churches in power, for births, marriages, baptisms and deaths and were recorded in their church, until about 1770 or so, when our Mennonite Churches were required to do this. Our people were hard workers and honest and their testimony must have counted, because some Lutherans and Catholics joined our churches. These were expelled from the community. The Vistula and Nogat Rivers flood very often, causing much damage in property and life. These lowlands consisted of many swamps owned by some count or Baron, who wanted to develop this area into a paying, well planned and kept, farming community. Our people had generations of training in the art of draining lowlands and swamps, by canals, pumps and dikes, in Holland and in Friesland.

In the 16th century it was not only an honor to be a Hollander, it was also advantageous. Holland had the greatest sea-shipping business in the world and thus political and financial prestige. It was also because of this that our people were familiar with the Vistula River Valley, before our records show that they moved there. It was in these times of settlement, flood damage, pressure from the State Church and other hardships, that the Churches in Holland assisted their fellow brethren in Prussia. Many young men were also sent to Holland for vocational training and in many instances came back married to girls from Holland and became successful businessmen in Prussia.

Here are some of the family names that are found in church records and land leases, in the area where our Fast family farmed and belonged to church. Adrian, Albrecht, Becker, Bartel, Boldt, Block, Buller, Decker, Ediger Eitzen, Ewert, Flaming, Funk, Goertz, Franz, Janzen, Koehn, Isaak, Nickel, Voth, Stobbe, Peters Poetker, Siebert, Sperling, Schroeder, Richert, Schellenberg, Nachtigall, Pankratz, Willems, Unrau, Pauls, Wiens, Wiebe, Quiring and Wall. Here are some of the villages where the Fast families lived: Blumstein, Commerau, Heinrichsdorf, Leske, Heubuden, Koenigsberg, Ladekop, Lichtfelde, Liebenbruch, Orloff, Mielenz, Finckenstein, Pasewark, Markushof, Rosenort, Sandhof, Wernersdorf, Schweingrube, Neustaedterwald, Tiegenhof, Altenau, Pietzkendorf, Schoenbaum, Rudnerweide, Tragheimerweide and Prangenau.

From about 1750 on the Mennonite churches recorded births, marriages and deaths, etc. Our Mennonite Colleges have microfilms of some twelve or so churches of the area where our people came from, also some individuals have these films, and are very interesting, at least to me.

The attitude of the family towards the church and school play a great part in the future of that family. We do not have very much information as to the relation, in Prussia and Russia, but enough to know that there was and is a deep concern for the spiritual welfare of their descendants, as well as materially. The Church of any age has problems to contend with, from without and within. The pressures from without, usually tends to force the members together, but from within tends to weaken the organization or even separation. The families of the Prussian congregations came from more than three different areas and backgrounds. The Flemish (Vlaamisch) from Flanders, Waterlanders originated between the North Sea and Lake IJssel, and the Frisians from Friesland and North Holland. The Ban, its use and mis-use, the degree of shunning, even between husband, wife and children, and members marrying between the churches were mostly dismissed, also different church customs and superiority feelings were some of the problems the Mennonite congregations faced. But we must not forget that the churches of these generations had strong Christian and fundamental convictions and backed them up with a practical Christian life. Let us also keep courage, because basically the problems are the same now as then.

We here in Montana are certainly not living in a swamp area. But in Holland and Friesland and the Vistula and Nogat Valley they did, and they did not have the problem of conserving moisture, but to control or get rid of it, by building dikes, drain ditches and pumps, run by windmills. Some swamp areas were 6 to 7 feet below sea level. They had to clear the land of reeds and rushes and it is claimed that 80 percent lost their lives through swamp fever. Floods were a constant threat, caused by heavy rain fall, spring thaws, and a strong north wind would blow the water inland from the North Sea. The soil was rich, which was favorable for the dairy business, consuming lots of feed and grass. They also raised wheat and rape, this plant belongs to the cabbage family and is good for sheep and pigs. The Holstein cow was very popular with our Mennonite Farmers and was called "Milk Boat". It was a proverbial saying among the cattle dealers in Germany "The best Milch cow grows around Neuteich." Tons of cheese were processed from these areas and shipped out. They also developed churns and thus selling cream and butter. They were also skilled in gardening and weaving. At a farmers' day meeting, the Marienburg Mayor had said, "One can easily detect where a lazy drunken peasant or a sober and industrious Mennonite lives." The small farmer had his building in one line, under one roof, the medium farmer in a L shape, the large man had his in a cross shape. The farmers came mostly from Friesland and the businessmen from Holland. Since they were not considered citizens of Prussia, they continually encountered difficulties in finding occupations open to them. Danzig had ten businessmen and among the industries were weaving, brewing, dying, shoemakers, tailors and dairy processing plants. They had the same problems we have now, the lack of opportunity for the younger generations to stay on farms.

Due to increased pressure upon our Mennonite families to get the young men to serve in the army or pay a heavy tax instead and were also restricted in the purchase of land together with other things.

Our forefathers began to look for a country that would grant them freedom in accordance with their convictions. America was also considered at this time. It was the year of 1763 that Catherine II, Empress of Russia invited farmers from Germany, including our people in Prussia, to come to the Ukraine, South Russia, which had been taken from the Turks. In 1786 many of our people were ready to accept this offer and started to plan for the emigration. After more than 250 years in Prussia they began the emigration in the spring of 1788 to the prairies, north of the Black Sea, in the bend of the Dnepr River, to start the first colony of villages, called Chortitza. It is accepted that 200 families had arrived by the end of 1788. The largest movement in one group was 206 families in 1803. In 1804, 155 families, and it was in this year that the Molotschna area in the Gov. Taurien was opened for settlement to the Mennonites and nine villages were started on the Molotschna Creek. In 1818 a group of 150 families started out from the Frisian Church area of Tragheimerweide and Rudnerweide. It was in this group that our Fast family traveled with to South Russia. Here we found about 50 families from other villages represented. The well to do families traveled with canvas covered wagons hitched to three or four horses, and others with one horse carts and wheel barrows. The farmers took cows, (mostly Holstein) sheep, pigs, chicken, a plow and harrow along. The trip usually took about eight weeks. Our Fast family lived in the villages of Rudnerweide, Grossweide, Pastwa or Franztal on the Juschanlee Creek, in the south-eastern part of the Molotschna colony, which is about 25 miles northwest of Berdjansk.

Our Johann Fast was about ten years old when his parents moved to Russia. Peter and Agatha were born in the Molotschna. We have very little information on our Fast family, except that in Prussia the Fast families were generally represented more in the Flemish Churches. Our Fast family belonged to the Markushof Church till 1815 when they moved to the Tragheimerweide area and lived here about three years, when they moved to Russia and joined the Frisian Church in Rudnerweide. The Johann Fast, at the age of 23 married Ana Eidzen born about 1812. They were married 15 years when David was born and she passed away then or soon after. There were now five children in the family. At this time Sara Peters, the oldest daughter of the Heinrich Peters family, was helping with the housework, but only for about three months, when father Fast married her. It may be that they joined the Pordenau Church now. This church was built in 1828 and Heinrich Toews was the first Elder. In 1867 Rev. Isaac Peters followed as Elder and baptized Heinrich, and in 1872 he baptized Sara, and I believe we may conclude from this that they were members of this Flemish Church till they moved to America. It should probably be mentioned here that since 1820, members of the Flemish and Frisian churches intermarrying were not expelled.

Let us take a brief look at conditions in areas where our forefathers lived in South Russia. The first industry was the production of silk, which was soon replaced by raising grain and in time this over-shadowed all other branches of agriculture. This in turn called for large mills to grind feed and flour and factories producing farm equipment. In time there were 26 large factories and many smaller

industries producing brick, cheese, sausage, soap, starch, clocks, furniture, woven goods, vinegar, beer and whiskey, and they also had printshops. The Holstein cows, which they brought along from Prussia were much superior to the native cows and played a very important part in the growth and development of the colonies, because milk, cream, butter and cheese were regularly delivered to larger cities, such as Berdjansk and others, as far as the Crimean peninsula. With the crossbreeding of imported sheep, this also developed into a profitable business.

Our people were also used to having good gardens and the planting of trees was encouraged, with some sweat and self-respect and careful futuristic planning, made the Mennonite Villages a beautiful sight to behold. According to records Johann Cornies had earned due respect in leadership to improve agricultural methods, and planting thousands of trees. He was also instrumental in raising the standards of the educational system, and facilities. There was a school in each village, with very little improvement since the beginning and were in dire need of qualified teachers. He brought about six different kinds of Fabels (German ABC books) along from Prussia, a song book and the Bible, and the rest was up to the teacher, who in many instances were physically handicapped or an old mother. Geography, History, language and arithmetic depended mostly on the capability of the teacher. Artistic writing was greatly developed during this time.

In South Russia it was the responsibility of our forefathers to govern the affairs of the villages and colonies. This created problems and conflicts, between the secular powers, such as the Dorf Schulze (village mayor) and Councils and the Church authorities (Elders) etc. This education was paid for collectively and by individuals and in some instances with a very high price, before satisfactory adjustments were made. There were around 15 churches in the Molotschna Colony and in Rudnerweide was the only Frisian Church. Materially our people prospered normally and even to the point that the surrounding communities envied them. But they also had their share of trials and problems, pioneer life in the beginning, crop failures, due to adjustments to soil and climate, grasshoppers, hard winters and the normal growth in population, created landless families, which was a continuous problem and only partially solved by increasing industries and buying land and starting new villages. Material ~~prosperity~~ prosperity tends to spiritual poverty. I wish this statement were not true, but we find this trend pictured very clearly with the Children of Israel, that when things went well they forgot God.

Even if the natural trend of indifference of a lesser or greater degree towards God, His Word and Way of Salvation, there are always leaders, members or groups that have convictions, concern and are willing to sacrifice for the spiritual welfare of their families in school, church and community. Our forefathers had been denied privileges and freedoms before they came to Russia after 1788, which we cherish so much. We certainly do not want to minimize the Mission programs they sponsored. The Government did not encourage Home Missions, and the first Missionary to go out was Heinrich Dirks to Sumatra, in 1869. We are also glad to report that the parents and

grandparents of Eduard Fast (+June 2, 1960). Mrs. Fast lives in Utrecht, Holland, were Missionaries in Java, since about 1890. In Russia there were about six Fast families that were either Elder or Minister or Teacher. I will mention a few divisions of the Church, and the resultant beginning of existing Mennonite Denominations. The Klein Gemeinde 1814 (Evangelical Mennonite Church), The Mennoniten Brueder Gemeinde 1860 (Mennonite Brethren), The Templer Gemeinde 1863 (Jerusalems Friends), Herman Peters Gemeinde 1865 (Bread Breakers Peters Church).

Since 1848 when Johann Fast married Sara Peters, they lived in Gregorjewka, where Heinrich was born, then in 1853 in Rohhorfsky, where Sara was born. Not too long after this they moved to Jurtemalee (Dmitrievka), which is about ten miles northwest of Berdjansk, and approximately the same distance from the Sea of Asow. This area was slopping down towards the sea, which also affected the climate favorably. Here they had a six acre garden with many kinds of fruit trees, and a high wall around it, but still the boys had to watch at night so the Russian boys would not steal. They also had farmland, for the records tell us that they seeded 30 acres of wheat and 15 acres of barley. They lived on the road from the Molotschna villages to the seaport of Berdjansk, where there were some large Mennonite owned grain elevators. Thus many farmers hauled grain or on a business stopped in at a coffeshop which was run by the family, serving Prips (roasted barley). Many people stayed for the night also. They had feed for their horses and reshi tweback (roasted buns) for themselves, and they would sleep on the hayloft. This coffeshop brought in many Kopekis (nickels). The Fast family also owned a wind-driven flour mill and a press for the production of turpentine, hemp and mustard oil. The only other Mennonite family in the village were the Jacob Eitzens. She was Agatha (Fast) sister to Father Johann. Being that there were only two families of our people here, it is understandable that they would possess a high degree of interest in each other. This is illustrated in little incidents, such as the one Mrs. Henry F. Janzen recalls her mother or grandmother telling about. When the Fast family got company and the Eitzens did not know who it was, then Gerhard had to run over to the Fast family and see what time it was (the clock being in the guest room), then they knew who was visiting the Fast family. Here they lived for more than twenty years and became well established materiall

We can readily understand the concern of our people in Russia for their children and future generations, when freedoms that were promised them forever, were rescinded. They now turned toward America when in 1874 great numbers started to leave Russia. I believe we may imagine our Fast family planning their trip and getting the necessary papers in the winter of 1874-75, then in the spring they were packing and selling their real and personal property. We do not know when they left Jurtemalee, which was about 60 miles from Hochstadt where they got on the train at 7:00 o'clock in the morning June 17, 1875 (Julian Calendar). At Pawlograd the Bertaler Immigrants joined and at the previous station Franz Penner of Prangenau was left behind. In the evening we were at Losowaja and the next mornign at Kharkow. In the evening at 9:00 we started out again and some slept on the benches, and some under. At midnight mother

awoke me and said father was missing and I should tell our leader Harms. Just then a man brought father in from the other car. How he got off the train he could not recall. He had dreamed he was in Steinbach with lots of people there, and he stepped off the train and awoke when he was down. He wanted to get back on, but the train was moving and he could not get on by himself. Then a man grabbed him, pulled him up and said, this time I will save you. The Lord did help, father was not hurt, nor robbed. The mystery of this man is unsolved. This train was for immigrants only, but a stranger had been seen, this was abnormal. Two days later Franz Penner caught up with us by fast train, which cost him 7 Rubles extra.

Saturday the 21st, we got to Wollochisk and the next morning at 7:00 in Pod Wollochisk. The officers took our pass for inspection, which took 12 hours. It was very hot here. David Harms was sick. A man of the ship Co. from Antwerp, Belgium, met us here. The 22nd we continued through beautiful country and deep valleys in Austria and about 7 in the evening we arrived at the German border city of Muslowitsch, for the night we lodged under the trees and stars. The next day at noon we were at Breslau and here the Bergtaler group took a different route. In this city they used dogs as draft animals. Tuesday, the 24th we went through Magdeburg and Eisleben, which is a very mountainous country with many tunnels. When we arrived at Nordhausen there were very many people waiting to see the Russian immigrants and were they surprised to find them all talking German. Hanover and Hessen are in very beautiful territory, then through Kassel and over the Rhine River to the large city of Achen. From here on there was more variety in scenery and wonders of nature. There was also a gymnasium with a glass roof. In the afternoon we got to Antwerp and went sightseeing, also took care of the necessary business such as changing the Russian Ruble to the American Dollar. The Rubel with the gold standard was valued at \$.83 and the silver at \$.78.

Thursday, the 26th, at 7:00 in the evening we boarded the Ocean steamer Nederland. The next day we were on the ocean and the food did not taste good, sea sickness took the rounds, father, David and Herman were not affected yet. Mother, Heinrich, Gerhard and Elizabeth were very sick. The 28th we were in the English Channel and land, lighthouses and fortresses were visible on both sides. During the night something broke on the propeller and had to go to England to have it fixed. Sunday we had worship ~~xx~~ service and the following night Mrs. Bartel passed away. She was put into a casket made of rough lumber and stome put into the base. The next morning the Captain read ~~S~~ cripture and prayed and then the casket was put on a slide into the water. The morning of the 30th the ship was ready. July 1st we were in the open sea and the next day we saw herds of sea lions playing around the ship, shooting up water. Now it was cool enough to use a sheepskin coat and the sun was seldom seen. Thursday the sea was calm. This gave those a rest that were still seasick. The food even tasted better.

On the fourth of July it was warmer, ~~xx~~ foggy and windy. The water came on deck and ~~xx~~ tran down the stairs. The fog horns were used many times to prevent collisions. We traveled third class

as therest, with the exception of a few who has second class ticket. Saturday it was nice and we saw a few whales spitting. Sunday, the sixth, we had worship service again and we were on deck without overcoats. The following night we had a severe storm from the side which rocked the ship that the cradles with children fell over, some fell out of their beds, dishes had to be tied down, and the seasick gave their ususal signals. The next day the going was better, with the wind from the front, which does not rock the ship so much. The eighth we caught up with a sail ship, passed it, and it was out of sight pretty soon. Wednesday, the ninth, I wrote in my diary after 12.30 a.m. when the sun went down, I did not change my watch till now.

The man of the ship started to clean up and paint. The next few days nothing abnormal happened, except the twelvth, a baby passed away that was born on ship, and the Pilot from America boarded our ship. Sunday, the 13th, we were nearing the coast, full of epectations and gratefully waiting for the end of this part of our journey.

We spent Monday and Tuesday in Philadelphia, making arrangements for the rest of our trip, to our final goal. But in the meantime the boys thought they would enjoy a little swim in the harbor. There was a ladder down to a raft 16 feet square, in about 100 feet of water and there were iron rings screwed to the edge around and some of the boys were in the water clinging to these rings. Off and on they would leave these rings ans swim a little ways and come back. Then brotherGerhard said, you are much too careful, just jump into the water. When he had undressed he jumped into the water just bedise me, where I held to my ring. The water was clear and I saw to my dismay that he was going down deeper even though he tried to come up and was already five feet under water.

Brother Heinrich saw this and in great fear cried, boys save him. We all froze with fear, but God gave me a happy thought. Without me leaving the ring I pushed my right foot down as close to him as I could. He had his eyes wide open and saw my foot and grabbed my toes and I pulled him up about one foot when his hand slipped. I pushed my foot down again and this time he got hold of m my leg with an iron grip and I was able with God's help to bring him up. The joy of swimming had quickly vanished, with the exception of a few who could swim very well. This experience we did not tell our parents at that time, and as father passed away in December, we did not tell mother till a few years later and she recalled that she was alone in the waiting room and a great fear had come upon her, as though a big accident had happened. She had then prayed and that fear had left her. When the children had come to her in the waiting room, she had said to them in a tone of disappointment, how could you stay away so long, I was afraid because of you. Nothing more was said at that time.

Tuesday at four in the afternoon we got on the train and were heading for Mountain Lake, Minnesota, where we arrived the 18th in the evening (Julian calendar) or the 30th Gregorian). Taking all in all we can say the Lords blessings were with us on our trip and as a family we have to say the Almighty held his hand of blessing over us at all times. Praise the Lord for his gracious protection and care.

Our beloved father Johann J. Fast left the old Fatherland Russia in a physically weak condition. Before they left the people there had said, he would be buried at sea. But he made the trip the best, with no signs of seasickness. David did not get it either, but our beloved mother had it worse than any of the family.

Wednesday, the fourth of August they moved to their 160 acre farm which they bought for \$1600,00 and a building on it 20 x 20 feet. In this house our Fast family and Johann Fast's (Mahla) and son John lived, till they had the new house ready in late fall, which totaled 10 people. Father Fast had said that he wanted a new home for the family before he passed away. He was quite weak, but he pulled weeds among the trees and helped with other things as he was able, using the bench a lot. He passed away Dec. 6th and was buried about 800 feet southwest of the buildings. Son Heinrich planted a poplar tree at the grave, which is very large and the branches alive in 1962, which probably is about 85 years. The first house that the family lived in is still standing and being used by the grandson Gerhard H. Fast, who is also farming the ~~fx~~ home place.

F5 Justina *Aug.19,1943 "

F6 Elsie *Oct.19,1945

Left Ukraine 1927 & went to the far eastern Part of Russia on the Amur River. The Government allotted them land & money for resettlement. The spring flood destroyed the whole settlement. Living close to China, they tried to cross the border, were arrested & put to jail. Were set free 1930. Tried again & he succeeded but without wife & child. While working in China he managed to get the family across. They left Harbin by ship to France, then to Paraguay arriving in the Chaco in May 1932.

Fast

166

A1 - B2 - C9 - D7

Maria K. Fast *Feb. 20, 1901

Registered Nurse. She served in the Bethel Hospital ten years, in Mountain Lake, Minnesota and some other places. Then she enlisted in Christian Service with MCC, where thousands of war refugees in the Balcan area needed assistance for repatriation. The ship in which she was an escort, hit a mine on the return trip west of Italy. She and another person were thrown out of the life boat and lost their lives May 2, 1945.
